

NAFLD Study Group Annual Webinar

Immune cells and macrophages & Novel Therapeutical targets in MASLD

Monday 23 – Tuesday 24 October 2023

4:00 pm to 7:00 pm CET (Rome)

DAY 1 - Monday 23 October

4:00pm Welcome

Abstract presentations on MASLD

Immune cells and macrophages in MASLD

5:00pm **Fawaz Alzaid**, Paris, France - *Macrophage energetic adaptation and the transcriptional control of inflammation*

5:30pm **Joel Haas**, Lille, France - *Metabolic programming of hepatic dendritic cells in the development of MASLD*

6:00pm **Caitlyn Myers**, Gothenburg, Sweden - *Role of macrophages lipid scavenging in MASLD*

6:30pm Panel Discussions

DAY 2 - Tuesday 24 October

4:00pm Abstract presentations on MASLD

Novel therapeutical target and biomarkers for monitoring progression and response to treatment

5:00pm **Arun Sanyal**, Richmond, VA , USA - *Use of biomarkers to monitor MASLD and evaluate response to treatment*

5:30pm **Matthias Tschöp**, Munich, Germany - *Overcoming Obesity with Multi-Receptor Drugs: from Discovery to Approval*

6:00pm **Emmanouil Tsochatzis**, London, UK - *New therapeutic targets in MASH*

6:30pm Panel Discussions

7:00pm Award Ceremony for Best Abstract Presentation
