

MASLD-EGIR

Study Group Meeting 4-6 December 2024 - Lille, France

Joint MASLD-EGIR Study Groups Meeting in Lille, France 4-6 December, 2024

Wednesday December 4, 2024 (Afternoon)

Session 1 - Complications in MASLD

Is diabetes a complication or a driver of MASLD? *Cyrielle Caussy* (Lyon, France)
Cardiovascular complications. *Christopher Byrne* (Southampton – UK)

Abstract session - 4 Selected abstracts

Coffee break and networking

Session 2 - MASLD Guidelines and Non-invasive Tests

Update on new EASL-EASD-EASO guidelines for MASLD *Sven Francque* (UZA, Antwerp, Belgium)
Non-invasive tests for MASLD screening *Laurent Castera*, (Paris, France)
Round table with panel discussion

Thursday December 5, 2024

Abstract session- 4 Selected abstracts

Session 3 - Tic toc: how insulin resistance changes the metabolic clock

Circadian clock in MASLD. *Hélène Duez* (UMR 1011, Lille, France)
Time restricted feeding in metabolism. *Paola Tognini* (Pisa, Italy)
The brain is central. *Vincent Prevot* (Univ. Lille, France)

Abstract session- 4 Selected abstracts

Coffee break and networking

Flash Poster sessions

MASLD-EGIR

Study Group Meeting 4-6 December 2024 - Lille, France

Joint MASLD-EGIR Study Groups Meeting in Lille, France 4-6 December, 2024

Thursday December 5, 2024

Session 4 - Heterogeneity of MASLD

Sexual Dimorphism and genetic variants. *Luca Valenti* (Milan, Italy)

Data-driven cluster analysis identifies distinct types of MASLD. *François Pattou* (CHU Lille, France)

Abstract session - 4 Selected abstracts

Coffee break and networking

Session 4 - Adipose Tissue and Lipotoxicity

Adipose tissue adaptation in obesity. *Michael Ryden* (Stockholm Sweden)

Adipose tissue-liver cross-talk. *Delphine Eberlé* (Lille, France)

Round table with panel discussion

Flash Poster sessions

Friday December 6, 2024 (Morning)

Session 5 - The liver as central organ

Role of the liver in the pathogenesis of fasting hyperglycemia. *Andrea Natali* (Pisa – Italy)

metabolic alterations in MASLD and its screening: *Sami Qadri* (Helsinki, Finland)

Abstract session - 4 Selected abstracts

Session 6 - Molecular determinants of hepatocyte function

Maintenance of Hepatocyte Identity in metabolic disease. *Jérôme Eeckhoutte* (UMR1011 Lille, France)

ERR – PPAR α interactions in hepatic lipid metabolism. *Karolien De Bosscher* (VIB, Ghent University, Belgium)

Macrophage in the liver. *Oliver Govaere* (Leuven, Belgium)
